

CREATE's "PAINT THE TOWN" GALA CELEBRATION, JUNE 4, 2022

Proceeds from the evening will benefit CREATE's mental health and art education programs which positively impact thousands of Montgomery County residents, particularly marginalized constituencies, people living on low-or-fixed incomes and children, youth and adults living with mental illness and developmental disabilities. This past year has been challenging, as demand for our mental health services, particularly among children and teens, has skyrocketed. We have a growing mental health crisis in our community and CREATE has rapidly expanded our services and programming in response, stretching our limited budget.

In our 36th year, CREATE Arts Center continues to deliver quality art education programs and critical mental health services to all ages, and to build authentic Community Partnerships to grow our impact and ability to level the playing field in access to the economic, social, academic and wellness benefits of the visual arts.

CREATE is again partnering with American Legion Post 41 in Silver Spring for this celebration which features delicious eats from local restaurants, live local bands, raffles and more.

Please consider a sponsorship package in support of this year's fundraising GALA.
